

# **Manifesto**

**Eoghan McLaren**

**LGBT+ Officer post 2018**

**If elected as LGBT officer I intend to offer a safe space, advice and support about accessing services and providing a strong voice for the community**

**I'm Eoghan and studying animal care (yr 1)**

**After attending many colleges (FVC Alloa, Clackmannanshire and Falkirk and SRUC Elmwood and now Aberdeen) while deciding my career path, I have noticed a growing amount of LGBT+ students but not many people to stand up for our issues and inequalities, I plan to change this through education and awareness.**

**My objectives if elected LGBT+ Officer is to set up a group on Aberdeen campus for people who identify as part of the LGBT community and allies of the community. This will enable people to find like minded friends, be more confident in themselves, know where to turn to if they need help and an all round safe space where any LGBT+ topic can be discussed. Also providing support and resources like workshop materials etc. In the hope that other campuses will be interested in starting up their very own group.**

**I would also set up an event/campaign across campuses to raise awareness and educate people on LGBT issues and equality of living in today's society and going through education being LGBT**
