

## Pledges:

I will promise to listen to everyone's concerns, issues and ideas.

I will promise to do the best I can to help those who are being bullied.

I will promise to support everyone who needs it, for e.g. if they haven't come out yet.

## Manifesto:

I believe that every person in the LGBT+ community deserves to be loved, supported and cared for. If I am elected as the LGBT+ liberation officer, I want to be there for everyone, I also want to help those who are questioning, or want to be understood and to try and provide educational resources.

By the time I am finished here, I want SRUC and SRUCSA to be as supportive as possible to all students whether they are gay, lesbian, bisexual, transgender, pansexual, asexual etc, and for them to feel welcomed into the college.

One way I want to help these people is by making a society online where anyone can join, from any campus, where we can have online meetings, have conversations, and make new friends, with people who will support each other.
